TTTX TRANSMITTER BANDWIDTH MEASUREMENT: November 17, 2008

Equipment Under Test:
International Marketing, Inc. Model TTID-GT1 Transmitter, Serial Number IC647

Transmitter frequency = 433.92 MHz.

Scan width = 500 kHz per division.

Resolution Bandwidth = 30 kHz.

Vertical calibration: 10 dB per division.

Instruments:
Hewlett-Packard 141T / 8555a / 8552b spectrum analyzer system: 10 MHz -40 GHz.
Sony Mavica digital camera.
